

# Wild Ones

Alice Cooper

We are the wild ones crashin' through the night  
Livin' in the shadows, hidden from the light  
Revvin' up our engines, sharpenin' our claws  
'Cause baby, when you're hungry, the jungle is the law

Oh  
Runnin' with the wild ones  
Yeah  
Baby, we're the wild ones

Yeah, we're the wild ones, we live in every town  
We own the city streets, we rule the underground  
There is no cagin' us and you'll suffer if you try  
We got the rage in us 'cause it makes us feel alive

Oh  
Runnin' with the wild ones  
Yeah  
Baby, we're the wild ones

Wild ones  
Wild ones  
Wild ones

Can you feel it? Rollin' thunder  
Lose your mind and drag you under  
Can you see it? Gettin' higher  
'Cause it's burnin', burnin' like a fire

We are the damned ones, this is the life we choose  
There's no redemption and nothin' left to lose  
If you see us comin', you won't have time to pray  
When you hear the motors gunnin', just get out of our way

Yeah  
Runnin' with the wild ones  
Yeah  
Baby, we're the wild ones

Wild ones  
Wild ones  
Wild ones

Can you feel it? Rollin' thunder  
Lose your mind and drag you under  
Can you see it? Gettin' higher  
'Cause it's burnin' like a fire
