

Choke

Alice In Chains

Before you ask for something better
You should know I'm practiced at goodbyes
Are you so deprived
Think you're doing me a favor
I don't need no lesser savior
I'm doing fine

Fragile things so close together
Taped up broken from before
Part of something or all of nothing
A very long hard way to fall

Go then, if you don't feel right
Living in our home
Choking, eat your pride alone

Needless tension, the walls around you
Built before you came to tear them down
It was you I found
Take some time to think it over
If it's so hard to walk this road we mind
Then it's time to say goodbye

Fragile things so close together
Taped up broken from before
Part of something or all of nothing
A very long hard way to fall

Go then, if you don't feel right
Living in our home
Choking, eat your pride alone

So go then, if you don't feel right
Living in our home
Choking, eat your pride alone
If you don't feel right
Living in our home
Eat your pride alone
