

# Hollow

Alice In Chains

Turning in circles, slowing down  
Pulling against a closing out  
Easy to feed off a weaker thing  
Harder to say what I really mean

Chorus:

Hollow as a mountain all tunneled and drilled below  
Hollow as a mountain crowned with a cold, blue sky

All of your colors turn to grey  
Don't even matter anyway  
Bleeding impressions where you were tied  
Can't really say how you lost your mind

Chorus:

Hollow as a mountain all tunneled and drilled below  
Hollow as a mountain crowned with a cold  
Hollow as a mountain all tunneled and drilled below  
Hollow as a mountain crowned with a cold, blue sky

Silence so loud, silence  
I can't tell my up from down  
Silence so loud, Silence  
I can't tell my uá¹- from down

All of the faces life can show  
Withered and ugly the one you know

Chorus:

Hollow as a mountain all tunneled and drilled below  
Hollow as a mountain crowned with a cold, blue sky

Silence so loud, silence  
I can't tell my up from down  
Silence so loud, Silence  
I can't tell my up from down
