

between the lines

Alice Merton

Dreams, they
Drivin' along down the blue lake
You got me in a blue daze
I wanna be where you are
My mind
Readin' your thoughts as they pass by
Couldn't resist, I was too shy
Don't mind me, I can wait

But we're still standin' there in the light of the day
Yeah, we're still standin', waitin' for somethin' to say

But in between the lines (In between the lines)
I see words of gold that you've been scared to say
But in between the lines (In between the lines)
I seen you heart's explode, I watch your colours change
And I'm lookin' at you from the side
Yeah, you lookin' at me from the side
But in between the lines (In between, in between)
I see words of gold that you've been scared to say

Sweet spots
Playin' the strings like your own heart
Comin' close to the hard part
Don't mind me, I can wait
Twisted
Goin' on like you'd risk it
What I'd give just to miss this
Broken state of my mind

But we're still standin' there in the light of the day
Yeah, we're still standin', waitin' for somethin' to say

But in between the lines (In between the lines)
I see words of gold that you've been scared to say
But in between the lines (In between the lines)
I seen you heart's explode, I watch your colours change
And I'm lookin' at you from the side
Yeah, you lookin' at me from the side
But in between the lines (In between, in between)
I see words of gold that you've been scared to say

In between the lines (In between the lines)
In between the lines
And I'm lookin' at you from the side
Yeah, you lookin' at me from the side (In between the lines)
In between the lines
