

Hit the Ground Running

Alice Merton

It's a one way street, with an open end
And you never know, what lies ahead
But I always knew, that this was it
The signs were lit, oh I always knew

I'm gonna hit the ground running, hit the ground running
Only way that for the marching drums, I'll be ready when the morning comes
I'm gonna hit the ground running, hit the ground running
Only way that for the marching drums, I'll be ready when the morning comes

I'm an overdrive, go to play offense
And I won't look back, there be no regrets
I keep my head up, even if I'm fed up
Cause I'm getting closer, oh I know, oh I know

I'm gonna hit the ground running, hit the ground running
Only way that for the marching drums, I'll be ready when the morning comes
I'm gonna hit the ground running, hit the ground running
Only way that for the marching drums, I'll be ready when the morning comes

I'll be ready when the morning comes
Only way that for the marching drums, I'll be ready when the morning comes

It's a one way street, with an open end
And you never know, what lies ahead
But I always knew, that this was it
The signs were lit, oh I always knew

I'm gonna hit the ground running, hit the ground running
Only way that for the marching drums, I'll be ready when the morning comes
I'm gonna hit the ground running, hit the ground running
Only way that for the marching drums, I'll be ready when the morning comes
I'm gonna hit the ground running, hit the ground running
Only way that for the marching drums, I'll be ready when the morning comes
I'm gonna hit the ground running, hit the ground running
Only way that for the marching drums, I'll be ready when the morning comes
