

# The Other Side

Alice Merton

I'm seeing pink skies and cable cars  
I'm seeing flower bouquets in big round jars  
I'm seeing happy, I'm seeing dancing  
I'm seeing problems dissolve, you can't imagine  
I'm seeing you now and you're so happy now  
God, it feels so good to see you laugh out loud  
And I'm there smiling, 'cause what a timing  
I didn't think we'd make it out

What a long, long road it's been (it's been)  
What a long, long road it's been

I'm on the other side of it now  
Looking down, came around  
I'm on the other side of it now  
And you're there calling out  
I'm on the other side of it now  
Looking down, came around  
I'm on the other side of it now  
And you're there calling out  
I'm on the other side of it now

Seeing streetlights and colored walls  
I'm seeing long talks we couldn't have before  
I'm seeing happy, I'm seeing clarity  
I'm seeing all of the things that I used to be

What a long, long road it's been (It's been)  
What a long, long road it's been

I'm on the other side of it now  
Looking down, came around  
I'm on the other side of it now  
And you're there calling out  
I'm on the other side of it now  
Looking down, came around  
I'm on the other side of it now  
And you're there calling out  
I'm on the other side of it now

It's hard sometimes when you're losing the track  
It's harder when you keep trying to fight it back  
Oh, I thought it would be impossible  
Yeah, it seemed to me so impossible  
It's hard sometimes when you're losing the track  
It's harder when you keep trying to fight it back  
Oh, I thought it would be impossible

Oh, I'm on the other side of it now  
Looking down (Looking down), came around  
I'm on the other side of it now  
And you're there calling out  
I'm on the other side of it now  
Looking down (Looking down), came around  
I'm on the other side of it now  
And you're there calling out  
I'm on the other side of it now
