

Runaway Day

Alice Peacock

Watching the waves wash across the sand
Sharing a smoke as I hold your hand
You're here, with me there's no where else
I'd rather be
This is the best day I've ever had
Just for the day let's runaway
Won't you play with me
Down by the sea I'll show you how happy
We can be
Let's just drift away on our runaway day
My baby works hard he works all day
Sometimes at night I can hear him say
I wish, we could, go back in time
When things were good
You know we don't have to live this way

Whenever I'm blue, I know what to do
I want to go runaway with you
Ain't a cloud in the sky
I'm feeling so high
With you by my side, by my side
