

Rebel Rose

Alice Phoebe Lou

Rebel Rose

Oh I've seen her for a while

She's got a smile that brings me to my knees

I'll remind her that I'll find her in between the trees

Oh please

Oh please, oh please, oh please

Rebel Rose

Won't you take me on home

I'm drunk and I'm stoned

I got no place else to go

And I know I don't wanna be alone

Oh no no no

I don't wanna be alone

Rebel Rose

I sure can't describe

The look in your eyes

There's no describing this

There's no denying this

Rebel Rose

From the tips of your toes to the end of your nose

Everybody everybody knows

Everybody everybody knows

Rebel Rose

Won't you take me on home

I'm drunk and I'm stoned

I got no place else to go

And I know I don't wanna be alone
