

Take Flight

Alice Phoebe Lou

I treated you bad my dear
I'll blame it on fear
To help my own ears

And I put myself first my love
I pushed and I pushed
And I shoved and I shoved

Sometimes I can't breathe
And I push you out to sea
And leave you drowning
Drowning

And you, you smy soul my friend
You know that I know
That this ain't the end
And you opened my heart again
But things they have changed now
And we can't pretend

But we've got mountains to climb
And sure I'm happy when you're mine
But we're drowning
Drowning
