

Touch

Alice Phoebe Lou

I've been lonely since I woke up
I want a touch
No it's never enough
I heard his voice then had a crush
Made me remember all the reasons were

I wanna give you all I've got
Until I'm not even a thought
You've been hanging out in my head
I've been imagining you in my bed

But my imagination can only go
Only go so far
Only go so far
I want the real thing
I want it bad
Want you to hold me like you never had

Can our bodies meet again
Like it's the first time
Like there's no ties

I wanna give you all I've got
Until my body begins to rot
You've been hanging out in my head
I've been imagining you in my bed

But my imagination can only go
Only go so far
Only go so far
I want the real thing
I want it bad
Want you to hold me like you never had

Can our bodies meet again
Like it's the first time
Like there's no ties
