

Underworld

Alice Phoebe Lou

I've got so much to say
And yet nothing comes close
To the way we communicate
When we don't say a word
I hear you clearly without sounds
Oh, I don't need these ears when you're around

Communicate like trees
Way down under the ground
Where we've got so much going on
Like a whole other hidden universe
And I don't think that I wanna leave just yet
Can I just stay here, stay here
Here in our underworld?

Here in our underworld
Here in our underworld
Here in our underworld

Make me happy
Make me sweat
Here's my body, and it's dripping wet
And I want you to show me the way back
Oh, I want you to give me what I lack

Make me laugh and then
Pull at my heartstrings
Till I cry like a baby on a full-moon night
Tonight I don't wanna be anything
But a girl in a cute dress, a cute mess

Here in our underworld
Here in our underworld
Here in our underworld
Here in our underworld
