

Always

Alice Smith

Take me to your place
Have me in your ever after
Never leave me
Never go
I'll be over here
Waiting, won't you stand beside me
Walk with me into the light
Like the sun
Or the moon
Forever
This is my paradise

Something in your eyes
Somewhere I've been
Why have you come to take me
And I'm ready to go
Now and forever
And I can say forever
Because I know
Blue is your favorite color
