

Rex The Robot

Alicia Bridges

Rex the Robot
Mechanical man
He can turn you around with mechanical hands
With eyes of steel
He can make you feel
Like you never thought you would
When he takes you for a spin
In his heavy metal automated automobile

Rex the Robot
We dig what you got
Rex the Robot
Go robot go

He's Rex the Robot
Mechanical man
He can lift your spirit and make you understand
That his digital brain could drive you insane
But you know he never will
Cause he plays his music loud
In his heavy metal automated automobile

Rex the Robot
We dig what you got
Rex the Robot
Go robot go

Transitor master
Chromatic static
Razzle dazzle daddy-o
Go robot go

Rex the Robot
Mechanical man
He can shape your future with computer plans
His aluminum smile could drive you wild
And you know it surely will
Cause you love it at the wheel
Of his heavy metal automated automobile

Rex the Robot
We dig what you got
Rex the Robot
Go robot go
