

Love Looks Better

Alicia Keys

All I, all I ever wanted
Was a dollar and a chance
Find, find what I'm made of
Alright

Coming, coming from the bottom
Better learn how to dance
Find, find what you're made of
Alright

Feel like my love is wasting
Every day, yeah
Get so damn tired of chasing
Every day, yeah
And now it's you I'm missing
Every day, yeah
Every day, yeah
Every day

So can we talk for a minute
Stop for a minute
All I wanna do is you
Oh can we touch for a second
Be us for a second
Don't matter what I give it to
My love looks better on you
My love looks better on you
Promise you baby
Promise you baby

Hold up
All I, all I ever wanted
Was a city and some keys
Run, run through the street now
Alright

And now it's you I'm missing
Every day, yeah
Every day, yeah
Every day

So can we talk for a minute
Stop for a minute
All I wanna do is you
Oh can we touch for a second
Be us for a second
Don't matter what I give it to
My love looks better on you
My love looks better on you
Promise you baby

You're all I ever wanted
You're all I ever wanted
So can we talk for a minute
Just stop for a minute
Cause all I wanna do is you

Promise you baby
My love looks better on you
Promise you baby
