

The Thing About Love

Alicia Keys

Love
love will come find you
just to remind you
of who you are

Hold on
it will forsake you
threaten to break you
take what you got

Everybody laughs
everybody cries
sure it could hurt you baby
but give it a lil try
see that's the thing about love

Friends
sometimes will blind you
sneak up behind you
you cant give enough

Then life
it will embrace you
totally amaze you
so you don't give up

Everybody laughs
everybody cries
sure it could hurt you baby

But give it a lil try
see that's the thing about love

Don't tell me that i'm not the only that's going thru it all
ohhh sometimes i feel like i'm the only that's going thru it all
but its time
oh its time
for me to shine
hey
its my time
oh its time
for me to shine

It's my time
said its my time
for me to shine
it's my time
it's bout time
for me to shine

Everybody laughs
everybody cries
sure it could hurt u baby
but give it a lil try
that's the thing about love
that's the thing about love
that's the thing about

that's the thing about love
