

Open Up

Alicia Moffet

Talk to me
Trapped in your mind, I can't get you out
Let me in
I know you've been waiting on the other side

I know you here, are you with me?
I wanna be there, will you let me?
I know you're hurt, I can feel it
No more secrets

Open up, open up
Open up to me
'Cause I want to read you better
And I won't turn on you, never
Open up, open up
Open up to me
'Cause I want to read you better
And I won't turn on you, never

I won't turn on you, never

Lay with me
Show me who you are when it's late at night
Take a seat
Cause I know we can figure this out

I know you here, are you with me?
I wanna be there, will you let me?
I know you're hurt, I can feel it
No more secrets

Open up, open up
Open up to me
'Cause I want to read you better
And I won't turn on you, never
Open up, open up
Open up to me
'Cause I want to read you better
And I won't turn on you, never
