

1000 Friends

Alien Weaponry

Deconstruction of social norms
Communication without a voice
Defenceless to combat the wave
From society that keeps you a slave

Save yourself before it sucks you in
Disconnected living outside your skin
1000 friends and yet you're all alone
Caught in the game lost inside the unknown
1000 friends, alone again

Dissolution of real life
Only satisfied by seeing likes
Creating reality through a screen of lies
Unaware as the real world dies

Save yourself before it sucks you in
Disconnected living outside your skin
1000 friends and yet you're all alone
Caught in the game lost inside the unknown
1000 friends, alone again

Creating reality through a screen of lies
Unaware as the real world dies

Numb inside your head
The monster must be fed
Degenerate
Obliterate
The writing's on the wall
Can't put up with this fall

Save yourself before it sucks you in
Disconnected living outside your skin
1000 friends and yet you're all alone
Caught in the game lost inside the unknown
1000 friends, alone again
Degenerate
Obliterate
