

## Down The Rabbit Hole

Alien Weaponry

I've still been thinking about it  
All this old shit coming to haunt me  
Disrespected loss of humanity  
Hesitant and brought to disparity

I fall down  
The rabbit hole again  
I rebound  
Seems like the shit will never end  
I can't find  
The light at the end of the tunnel  
It's all a lie  
'Cause I feel like I'll never be normal

You all want a fucking piece of me  
Back in the day nobody could see  
A laughing stock is what you made of me  
Get the fuck out, your only motive is greed

I fall down  
The rabbit hole again  
I rebound  
Seems like the shit will never end  
I can't find  
The light at the end of the tunnel  
It's all a lie  
'Cause I feel like I'll never be normal

You say you've changed, you say you're sorry, but I can't help  
but wonder  
Looking back on it you see you've caused my mind to slumber  
Apologies only go so far and yet I prosper  
You've made me who I am today, without you I'd be nothing
