

Electric

Alina Baraz

Darker than the ocean,
Deeper than the sea
You've got everything,
You got what I need
Touch me, you're electric, babe
Move me, take me from this place
Movin' to the tempo,
Show me what it takes
Speeding up my heartbeat,
Playing in the flames

Kiss me, we're on fire, babe
Love me, take me to outer space
Kiss me, we're on fire, babe
Love me, take me to outer space

Covered in your water and
I'm feeling like a summer breeze
Submitted under power and
You brought me to my knees
Use me, you're electric, babe
Move me, take me all the way
Whisper in my ear,
I'm the only one you're loving on
Take advantage of the moment,
You're the only one that I want

Kiss me, we're on fire, babe
Love me, take me to outer space
Kiss me, we're on fire, babe
Love me, take me to outer space

Melting like ice on a summer day
Hold me like you mean, take me far away
Bodies moving in, temperature rising
Take me to the top then watch me fall in

[Outro: Alina Baraz & Khalid]
Kiss me (Kiss me), we're on fire, babe
Love me, take me to outer space
Kiss me, (we're on fire...)
