

# Fallin

Alina Baraz

Into the Night, I see my thing with stars fallin  
Into the Night, I see my thing with stars  
Into the Night, I see my thing with stars fallin  
Into the Night, I see my thing with stars  
Play me a darker song  
You set me down, I want to let you go  
but I give in, I got to let you know I got to let you go,  
feeling used  
Running, running  
Running back to you  
And you keep playing me, playing me  
Playing me like a fool  
I can't stop running, running  
Running back to you  
You just keep playing me, playing me  
Playing me like a fool

Into the night  
I see nothin' but stars falling?

Catch my breath then watch you go  
I can't forget the things you  
Put me through, you don't care  
You've got me wrapped around you  
I come back, you love that  
I know you do  
Feeling numb, feeling blind  
I'm feeling used but I keep

Running, running  
Running back to you  
And you keep playing me, playing me  
Playing me like a fool  
I can't stop running, running  
Running back to you  
You just keep playing me, playing me  
Playing me like a fool
