

I Don't Even Know Why Though

Alina Baraz

You know what to say on my way out
Hit me with the hate, been a while
Now I'm going straight through the fire, fire
I don't even know why though

Get me on a wave then you fade out
Hit me with the light, got me hired
I should get away from you, I know, I know
I don't even know why though

High hopes, I fall for the cycle
High low, I'm on on a spiral
Love me, why dope me then leave me
I don't (I don't even know why though)

I just want to put my weight on you
Switch it, smoke it, Imma sway on you
No one shootin', Imma wait on you
I don't even know why though
[x2]

Maybe it's the love that you show me
Make my body feel like it's holy
(Feel too good to say you hurt too much, too late...)
You're just what I need (I don't even know why though)

High hopes, I fall for the cycle
High low, I'm on on a spiral
Love me, why dope me then leave me
I don't (I don't even know why though)

I just want to put my weight on you
Switch it, smoke it, Imma sway on you
No one shootin', Imma wait on you
I don't even know why though
[x2]

I don't even know why though

I just want to put my weight on you
Switch it, smoke it, Imma sway on you
No one shootin', Imma wait on you
I don't even know why though
[x2]

I don't even know why though
