

# Lavender and Velvet

Alina Baraz

Pull up to the city  
Tell me I'm your lily  
I'll be in that dress you like  
Body in vanilla  
Yeah, I know it thrills ya  
I know what is on your mind  
Take you to a place where  
You can see stars here  
Nothing but the radio on

Baby let me love ya  
I just wanna hold ya  
We got nothing but the time

I'll take you anywhere you say  
I'll take you to my hideaway  
Baby just tell me the word  
I wanna give you the world

Let my love run wild  
Let me, let me love you down  
Let my love run wild  
Let me, let me love you down

You're the honey whiskey  
I'm getting kinda tipsy  
You know all the things I like  
Lavender, velvet  
Yeah, you got me melting  
You know what is on my mind  
Take you to the islands  
I can be the pilot  
We can go wherever you like

Baby let me love ya  
I just wanna hold ya  
We got nothing but the time

I'll take you anywhere you say  
I'll take you to my hideaway  
Baby just tell me the word  
I wanna give you the world

Let my love run wild  
Let me, let me love you down  
Let my love run wild  
Let me, let me love you down
