

# My Whole Life

Alina Baraz

Is it me, is my intuition wrong?  
Or does it feel like coming home?  
'Cause it's almost like you speak my language  
Like I know, that we've been right here before  
As I'm watching this unfold  
And I gotta say it, baby

Sunsets, sunsets  
Never been so bright  
When you, when you  
Look into my eyes  
You gotta say it's true  
And I gotta say it too

I do  
I can see my whole life when I'm with you  
Whole life when I'm with you  
Whole life when I'm with you  
Whole life  
See my whole life when I'm with you  
Whole life when I'm with you  
Whole life when I'm with you  
Whole life

In a moment, when the world is passing by  
I don't mind the sleepless nights  
If I got you by my side

Sunsets, sunsets  
Never been so bright  
When you, when you  
Look into my eyes  
You gotta say it's true  
And I gotta say it too

I do  
I can see my whole life when I'm with you  
Whole life when I'm with you  
Whole life when I'm with you  
Whole life  
See my whole life when I'm with you  
Whole life when I'm with you  
Whole life when I'm with you  
Whole life

(Take it home, just gotta take me home)  
(Gonna take it home, gotta take me home)  
(Take it home, just gotta take me home)  
(Gonna take it home, gotta take me home)
