

Off the Grid

Alina Baraz

You say you're loving the way I
Show you the stars in the daylight
You do the same for me every day
You say you're loving the way we
Don't gotta say what we're thinking
Never no pressure to fill up the space

Say the word and you know I'll follow
Off the grid in the El Dorado
Could be nice in the summer time
We could sit inside in the silence
Say the word and you know I'll follow
Off the grid, I could take you far
Could be nice in the summer time
We could sit inside in the silence

The silence

Oh yeah
Check it
Mmm

We've been here every day
On this same ship
Sitting in the silence
I wonder where the time went
When I see you smiling
I can feel your aura and it's vibrant
We don't gotta last but now my mind spin
I'd do anything to see you shining
(Oh anything)
I mean anything

Say the word and you know I'll follow
Off the grid in the El Dorado
Could be nice in the summer time
We could sit inside in the silence
Say the word and you know I'll follow
Off the grid, I could take you far
Could be nice in the summer time
We could sit inside in the silence

The silence
The silence
Mmm

Say the word and you know I'll follow
Off the grid, I could take you far
Could be nice in the summer time
We could sit inside in the silence

Say the word and you know I'll follow
Off the grid in the El Dorado
Could be nice in the summer time
We could sit inside in the silence
Say the word and you know I'll follow
Off the grid, I could take you far

Could be nice in the summer time
We could sit inside in the silence

The silence
The silence
Mmm
