

Dark Skies

Alison Krauss

I don't need a perfect lover
To hold me in the rain
Someone to ease my pain
When I feel blue

If I lost you to another
Think I'd drown out here for sure
Won't you stay with me and be
My only cure

Dark skies may cloud my day
But that don't bother me
As long as I can hold you close to me

I don't need a part time lover
To leave me in the cold
With empty arms to hold
When I need you

Tell me that there is no other
Send the cold wind from my door
Give you all my love and more
If you want me to

Dark skies may cloud my day
But that don't bother me
As long as I can hold you close to me
