

# Frozen Fields

Alison Krauss

I walked alone the fence road  
Thought of all the work I had to do  
You jumped right into between my thoughts  
Wouldn't that be just like you?  
But all the fields are frozen  
I was wondering where you are

Life goes by and met you [?]  
Just like it does on New Year's day  
There's a comfort in the good old times  
You don't feel so far away

Could it you be you found yourself like this  
And I just crossed your mind  
You're wondering through the frozen fields  
And the world stops soon or die  
Oh, it wouldn't be long til summer comes  
And these fields will be full and green

Life goes by and met you [?]  
Just like it does on New Year's day  
There's a comfort in the good old times  
You don't feel so far away

I walked alone the fence road  
Thought of all the work I had to do  
You jumped right into between my thoughts  
Wouldn't that be just like you?  
But all the fields are frozen  
I was wondering where you are

Life goes by and met you [?]  
Just like it does on New Year's day  
There's a comfort in the good old times  
You don't feel so far away
