

## Horizon Flame

Alison Moyet

Suddenly the landscape has changed  
Horizon flame

In the stream, what is square?  
Would you put the lights out. Dead?  
Look at all the lights out there  
Could have been enough for you  
Living like we needed to  
Would have been enough left for you

You can be the sire  
You were never plain  
Go and paint that sign  
Ordinary pain

In the stars, what is care?  
Would you keep the sound down. Dead?  
Look at all the stars out there  
Could have been enough for you  
Talking as we needed to  
Would have been enough left for you
