

# No

Alison Wonderland

I can picture everything  
The streetlight where you came to me  
In the middle of your high  
Hearing all the words you said  
But you don't remember them  
I know I will never lie

They will always tell you "Yes"  
But I'll tell you "No"  
Forever, forever  
They will always see the best  
But we're going home together, together

Always easy to be fooled into all the late night games  
Is it ever feeling real?  
We can change and make it right  
If you ever see the light  
Tell the devil it's a deal

They will always tell you "Yes"  
But I'll tell you "No"  
Forever, forever  
They will always see the best  
But we're going home together, together

They will always tell you "Yes"  
But I'll tell you "No"  
Forever, forever  
They will always see the best  
But we're going home together, together  
Together, together  
Together, together  
Forever  
Together
