

Everybody's Dead Inside

Alissic

I hurt myself again
I thought I was your friend
But I would never treat you half as bad as this
The walls are caving in
I'm scared but I pretend that I don't feel a thing
And no one ever knows

And I don't know how but I know I gotta get through
I gotta get through this
But when I move my lips it feels like no one exists

We smile to hide the tears we cry
Push it down, we say we're fine
Hurts like hell not to tell someone that we're quite alone
Oh no, it's just fun as we find our daddy's gun
Then we'll blow your mind
This is why everybody's dead inside

I broke my wings today
Locked myself in the cage
And the worse part about it was that I felt comfortable
I'm half a world away, don't know if I should stay
Has anybody even noticed that I've gone?

And I don't know how but I know I gotta get through
I gotta get through this
But when I move my lips it feels like no one exists

We smile to hide the tears we cry
Push it down, we say we're fine
Hurts like hell not to tell someone that we're quite alone
Oh no, it's just fun as we find our daddy's gun
Then we'll blow your mind
This is why everybody's dead inside

Where the hell did we go wrong?
Where the hell did we go wrong?
I can't go on living life like I'm in a coma
I can't go on living life like I'm dead, walking

We smile to hide the tears we cry
Push it down, we say we're fine (Push it down and say we're fine)
Hurts like hell not to tell someone that we're quite alone
Oh no, it's just fun as we find our daddy's gun
Then we'll blow your mind
This is why everybody's dead, dead inside

Everybody's dead, dead inside
Everybody's dead inside
