

Mutual Attraction

Alisson Shore

Magic's run by you I cannot lie
And our hearts are like neon lights
Maybe we can both be true and better now

I just wanna see your reflection
Yet our chemistry's a chain reaction
Baby, so we need to fall in love?

Oh, you give me feelings, make me fly so high
And your eyes got my heart singing "My oh my"
Oh baby, never ever leave me
Stay right here beside me
You're my mutual attraction

Babe, gentle touch goes by all night
And your eyes got my heart singing "My oh my"
Oh baby, never ever leave me
Stay right here beside me
You're my mutual attraction

Days go by, still you're like melted ice
Dropped in whisky, tastes like cotton skies
Don't you get attracted?
Oh, my hands are so cold

I just wanna see your reflection
Yet, our chemistry's a chain reaction
Baby, so we need to fall in love?

Oh, you give me feelings, make me fly so high
And your eyes got my heart singing "My oh my"
Oh baby, never ever leave me
Stay right here beside me
You're my mutual attraction

Babe, gentle touch goes by all night
And your eyes got my heart singing "My oh my"
Oh baby, never ever leave me
Stay right here beside me
You're my mutual attraction

Oh, you give me feelings, make me fly so high
And your eyes got my heart singing "My oh my"
Oh baby, never ever leave me
Stay right here beside me
You're my mutual attraction

Babe, gentle touch goes by all night
And your eyes got my heart singing "My oh my"
Oh baby, never ever leave me
Stay right here beside me
You're my mutual attraction
