

# Risk It

Alisson Shore

You are the ocean of grace  
Frankly, I'll dive under the depths of your face  
Easy to ascend like the God's gift's embrace  
You remind me of my mama's advice  
"Never play the fool twice"

Why? You're lighting my mind  
Jewels do shine on the darkness of the night  
Been through my worst, you were my first  
Schooling me with magic like a vault with a curse

Stakes are high, my love  
Will you remember me? Will you remember me?  
Preach from the skies above  
Will you wait for me? Will you wait for me?

Baby, let's risk it  
You're everything that I wanted  
With you, I am alive  
You know we're perfect  
Setbacks may come but you're worth it  
For you, I'll risk it all  
Risk it all  
For you, I'll risk it all  
Risk it all

'Cause you know stakes are high, my love  
Will you remember me? Will you remember me?  
Preach from the skies above  
Will you wait for me? Will you wait for me?

Baby, let's risk it  
You're everything that I wanted  
With you, I am alive  
You know we're perfect  
Setbacks may come but you're worth it  
For you

Baby, let's risk it  
You're everything that I wanted  
With you, I am alive  
You know we're perfect  
Setbacks may come but you're worth it  
For you, I'll risk it all  
Risk it all

I will give you my all  
I'm ready to risk it all
