

# Adding Up

Alive Like Me

Park bench on a Sunday  
Raining a lot  
Cold in some wet clothes  
You hardly talk  
Anybody out there.  
Probably not

Feet kind of hurt from the walking  
So many circles around what to do  
Still somehow nobody got what they wanted  
Kinda hate it but what else can you do

It's not adding up lately  
It's not adding up  
Everyone thinks you're crazy  
All the weights too much  
It's not adding up lately  
No it's not bad luck  
Just not adding up

Fold out a lawn chair  
Look through the stars  
Shadows follow closely wherever you are  
Anybody out there  
Maybe there's not  
Been to the top and the bottom  
Fixing a problem or two  
Still somehow nobody gets what they wanted  
And somehow everything goes slipping through  
When

It's not adding up lately  
It's not adding up  
Everyone thinks you're crazy  
All the weights too much  
It's not adding up lately  
No it's not bad luck  
Just not adding up

It's not adding up lately  
It's not adding up  
Everyone thinks you're crazy  
All the weights too much  
It's not adding up lately  
No it's not bad luck  
Just not adding up

Feet kind of hurt from the walking  
So many circles around what to do  
Still somehow nobody got what they wanted  
And somehow everything goes slipping through

It's not adding up lately  
It's not adding up  
Everyone thinks you're crazy  
All the weights too much  
It's not adding up lately

No it's not bad luck  
Just not adding up

It's not adding up lately  
It not adding up  
Everyone thinks you're crazy  
All the weights too much  
It's not adding up lately  
No it's not bad luck  
Just not adding up
