

# My Head

## Alive Like Me

I tried to forget you but it's way too hard  
The way you come in burning like a star  
In a way it's kind of therapeutic  
In a way I don't how you do it

When it's difficult how do I trust my heart  
And when my head is spinning round where do I start  
And today it's all just so confusing  
In a way it's hard just being human

Don't think for a second  
I need your help, don't need your blessing  
But this holy water got me confessing  
Should I call you or not  
Haven't I learned my lesson  
My heart over my head  
I said  
It's easy living harder to forget  
And yet  
So hard to trust Your heart over your head  
I never celebrated making such a mess  
Oh no  
It's hard to trust your heart over your head

Shake it off take a walk and thank the lucky stars I'm living  
Heading downtown looking cool I hit the bar I'm in it  
In a way it's kind of therapeutic  
Either way I don't know why I do this  
When my blood runs cold how do I trust my heart  
And when my head is spinning round where do I start  
And today it's all just so confusing  
In a way it's hard just being human

It's almost like you knew it  
It's almost like you knew it  
It's almost like you knew it  
It's almost like you knew it

Don't think for a second  
I need your help, don't need your blessing  
But this holy water got me confessing  
Should I call you or not  
Haven't I learned my lesson  
My heart over my head  
I said  
It's easy living harder to forget  
And yet  
So hard to trust Your heart over your head  
I never celebrated making such a mess  
Oh no  
It's hard to trust your heart over your head

Yeah I said  
Hard to trust your heart over your head  
Yeah I said  
It's hard to trust your heart over your head
