

Sober Week

Alive Like Me

When the blood runs down
That pretty cheek
It's gonna feel like a sober week
Had it all planned out
Fell naturally
Over our heads now we're on our knees
Stumbling home this must be drunken love
Yeah we take cheap shots at on another too much
Live way too fast and nothings ever enough
Ever enough

We've been on the run, and it's all been fun
But it's Gonna feel, feel like a sober week
Dragged this on just a bit too long
Now it's gonna feel, feel like a sober week
To me the way we cover up our honesty
Then try and pass it off as love
Oh my god this has all been fun
But it's gonna feel, feel like a sober week

Is it good enough?
Your faith in me
Just want a little more yeah that's all that I need
Have another round of dopamine
Cause nothing is working lately you're my caffeine
Trust me I've messed up, made bad decisions enough
To know you'll be calling me out on all of my bluffs
Hurts when I'm living when nothing's ever enough
I hear the starting gun

Now we're on the run, and it's all been fun
But it's Gonna feel, feel like a sober week
All gone wrong and it's no one's fault
That it's gonna feel, feel like a sober week
To me the way we cover up our honesty
Then try and pass it off as love
Oh my god this has all been fun
But it's gonna feel, feel like a sober week

Let it all run out, let it all run out
It's gonna feel like a sober week
Is it over now? Is it over now?
Easy to see that we've been
On the run and it's all been fun
But it's Gonna feel, feel like a sober week
Dragged this on just a bit too long
Yeah it's gonna feel, feel like a sober week
On the run, and it's all been fun
But it's Gonna feel, feel like a sober week
I'll move on when this drink is gone
Then it's gonna feel, feel like a sober week
To me the way we cover up our honesty
Then try and pass it off as love
Oh my god this has all been fun
But it's gonna feel, feel like a sober week

Let it all run out, let it all run out

Feel like a sober week
Is it over now? Is it over now?
Feel like a sober week
