Tru Ambassador Music

Yo, Jahvy!

Wha' do I know? Wha' do I know?

Me dawg Jahvy produce da one yah, you see it (there's nobody!)

Creator show we the way, we cyaan see it so clearly  
Never ask you fi nothing yet but if yah hear we  
Protect we from the wicked and evil weh come near we  
That's all we really a beg you do  
Man a drop daily, politicians fail we  
Still a smile all when dem treat we unfairly  
Only thing we 'fraid a fear, that shit scares me  
That's why we go as hard as we do (aye!)

Wha' the fuck do I know? In life you never know when  
I'm gonna take my time in music, seize the fucking moment  
In a league on my own, no I'm not your opponent  
Nothing me hate inna life like a snake or a fucking rodent  
Dem cyaan stop my show, that a one thing me know  
Gunshot fly through your bloodclaat headside if you ever hurt all my ego  
Same way how me send Ambassador a road, same way me send Gego  
Dem a say me numbers them too good, dem a say me buy views 'pon Vevo  
Okay then, still a gi' dem mayhem  
When we beat the odds I wonder what they gonna say then  
We just happy say we no lock weh behind no railing  
And even though we never meet the High, we still a hail Him

Sometimes I get so mad, when I see gunbags  
Hype and brag like dem wicked and bad, yo  
Sometime me say, "Fuck it, bun up dem whole squad"  
But then me 'member say dem youth yah bruk, dem life sad  
But I get so mad, when I see gunbags (cyaan hear me)  
Gwaan like say dem cyaan get dem toe tag, yo  
Sometime me say, "Fuck it, bun up dem whole squad"  
But then me 'member say dem bruk, dem nah've a job yo

Cyaan get no break, God damn, dem a test my faith badman  
Instigate, send police a try frustrate badman  
Cyaan get no break (no break), cyaan get no break, no  
Cyaan get no break... (no brea-a-k)  
Aye, bitch I'm in a good mood, check this  
All my life all me wanted was fi get rich  
Diamonds inna me bezel, diamonds all over me necklace  
Try no kill nobody, but dem a walk 'round with a death wish  
Haffi protect this, know them no expect this  
Put in whole heap a work and teach dem fi respect this (respect this)  
Mommy say "Son, careful, no be reckless"  
No mek dem stray you meds, the crown a yours, no mek dem tek this

That's why me mad when me see gunbags (so mad)  
Hype and brag like dem wicked and bad, yo  
Sometime me say, "Fuck it, bun up dem whole squad"  
But then me 'member say dem youth yah bruk, dem life sad
