

## Daisychains

All About Eve

Cloudless sky  
Aimlessly wonder why  
There's beauty in everything  
If I'm queen you're king, of summertime

Who cares where all the money went,  
We've time to spend that we haven't spent,  
And long may it last,  
Longer than daisychains

Suicidal sun can't set  
We've four more lazy hours yet  
The blue sky starred with aeroplanes  
We lie here making daisychains

Cream midsummer moon can't rise  
Before we've kissed our last goodbyes  
The thrill of you and me remains  
We drive home wearing daisychains

No fairytale  
Poisonous apples fail  
You wake up a sleeper  
And you've got to keep her  
In daisy chains

I don't care where all the money went  
We've time to spend that we haven't spent  
Long may it last  
Longer than summer time
