

## Higher (Free)

All About She

Tonight don't worry about a thing just hold me tight and when we're making love  
We'll touch the stars that's fun but sun just hold me tight when we're making love  
Set your body free (free free)  
When we touch the stars  
Set your body free (free free)

Higher  
Lighting up the sky like fire  
Only then it feels good  
Higher  
Look at what you did to me  
Ooh higher, don't wake me from the strangeness, take me higher  
Loosing gravity, I wanna try it  
Only if you're holding me  
When we're making love

Hit the lights  
Set your body free  
For tonight, you belong to me
