

I Can't Wait

All About She

Wait so long for you, it's been like forever
Come close to me, come close to me
Tried to change the tune, that don't make it better
Your memory works for my soul and I feel so damn complete

Here and now together
Come close to me, come close to me girl
Your scent fills the room, distance is the torture
Your melody moves through my soul and I feel so complete

Oh, you're my sunrise
Oh, you're my sunrise
(my heart starts beating
and I can't feel the ground no more)

I can't wait, I can't wait
Nothing moves me any more, I need your love
Oh, I can't wait, I can't wait
Nothing moves me any more, I need your love

Your love, your love, your love
Your love, your love, your love
Your love, your love, your love
Your love, your love, your love

Feel so damn complete, here and now together
Come close to me, come close to me
Your scent fills the room, distance is the torture
Your melody moves through my soul and I feel so complete

Your love, your love, your love
Your love, your love, your love
Your love, your love, your love
Your love, your love, your love

Along with the sun
While I chase your love
Tell me how it feels
Cause it feels so hard to say
