

Like That

All About She

There's a fever running free, running wild
Trouble my heart, ease my mind
Conversation never tastes like it does tonight
I'm aware when it's so quiet

Taking me high
Longing to touch and wanting to kiss
Is it a crime?
For you my love, I promise you this

I'll give it to you like that, I'll give it to you like that
I'll give it to you like that, gonna give you that mmm, so good
I'll give it to you like that, I'll give it to you like that
I'll give it to you like that, gonna give you that mmm, so good

Your permission is no wasted affair
I know what you want, you know I am here
Use imagination, what do you dare to try?
Control, I'll take it, I swear

Taking me high
Longing to touch and wanting to kiss
Is it a crime?
For you my love, I promise you this

I'll give it to you like that, I'll give it to you like that
I'll give it to you like that, gonna give you that mmm, so good
I'll give it to you like that, I'll give it to you like that
I'll give it to you like that, gonna give you that mmm, so good

Blessed thugs, what? You like that?
Crisp pot, hot box, I like that
Pusha, slip that, get that
You like that? Lick that, kiss that
Sit back, V got a Kit Kat
[?], hi hat
I don't buy that
Calling me a G, you better not try that
What about she, what about me?
What about you? I don't need you
make me go "ooh"
Get loose, howl at the moon like that
She gotta She gotta Bit of hood out the hood, it's all good
book first class booked, get your stage shook
