Still shameless with the gang, we yellin', "Buffet"
It get cloudy in Miami, all I see is grey (Grey)
I feel like a God, so watch how far these bullets spray
In a simulation, someone come unplug me
This NPC, she really wanna fuck me
She probably a virus, COVID-19
Someone burn the Matrix, come ignite me

Who here wanna shoot shit, who here wanna die?

Who here wanna move?
Out the simulation, out the simulation

I'm the CEO, I sit back and collect my payments
She suckin' dick 'cause I'm famous
I stuck a thumb in her anus
Had her smirkin', the face of the Joker
Pull up and hop out that Rover, yuh
They tryin' to push me to the side, they thought it was over
Baby Bone hop out that ride with a hunnid soldiers
Bullets flying out the truck like a cup of Folgers
Wake you up, turn a fuckboy to a closed folder
