

Valkyries In The Sky

All For Metal

They are fierce and beautiful
Every swordsman knows their name
Maidens sent by Odin's will
To be choosers of the slain.

They come down
A flying horses ride
As we fight

Sure I don't have to see them to know they are there
I feel the tension a movement in the air

Watch out! Valkyries in the sky!
Watch out! They hear your battle cry!

They're coming for those who fought
bravely and died
Guiding their souls to Valhalla tonight

Watch out! Valkyries in the sky!
Watch out! You're gonna take a ride!

High above the battlefield
Silhouettes against the sky
Legends tell they can foresee
Who gets killed and who survives

They come down
To where the heroes fight
Side by side

We are holding our ground and it won't be in vain
Lead us to glory, through agony and pain.

Watch out! Valkyries in the sky!
Watch out! They hear your battle cry!

They're coming for those who fought
bravely and died
Guiding their souls to Valhalla tonight

Watch out! Valkyries in the sky!
Watch out! You're gonna take a ride!

Watch out! Valkyries in the sky!
Watch out! They hear your battle cry!

They're coming for those who fought
bravely and died
Guiding their souls to Valhalla tonight

Watch out! Valkyries in the sky!
Watch out! You're gonna take a ride!
