

## Around It

### All Get Out

Time of death, three o'clock  
Is it still moving where you are  
I changed the batteries on your analog watch  
Wish you were here, wish we could talk

Always lost, I go out anyways  
Now that's enough  
Somehow walking feels like it got in the way

Past the point with you I know I'm stalling out  
The words begin to form and then they bottom out  
And I can't get my arms around it  
I can't get my arms around it  
Whatever I can do to make you like before

Ease your pain, stop your car  
Glacier Bay National Park  
Returned your body to the mother of us all  
Was there a push or did you fall

I move fast, it's hollow, sliding out from underneath  
Uncork my problems  
Never show me their faces

Past the point with you I know I'm stalling out  
The words begin to form and then they bottom out  
And I can't get my arms around it  
I can't get my arms around it  
Whatever I can do to make you like before

Something close is closing in  
And you don't have to be  
Where you don't wanna go to  
I believe it's better now  
And no one gets to tell me  
How to feel when I'm feeling good

When I'm feeling well enough to say  
You just keep sleeping on the facts  
That's when they get you  
That's when you ask  
Are you happy, are you sleeping enough?

Past the point with you I know I'm stalling out  
And the words begin to form and then they bottom out  
And I can't get my arms around it  
I can't get my arms around it  
Whatever I can do to make you like before

Moving on, remove your rings  
Keep some photos and magazines  
Southern Living paper, black coffee rings  
Wish you were here, wish we could sing
