## All Good Things

I'd never seek you out  
I'd never chase you down  
Cause I've seen the age to come  
Victory for no one

You never cooled the fire  
But you incite your crowd  
Can't see what you've become  
A crown with no kingdom

And now you see the Angels  
Gathering above you  
Trading down the stars  
Diamonds in the dark  
Fires in the sky  
Lighting up the earth  
Now you see the Angels

You only play to win  
Laugh at the ones who lose  
There's millions shouting out your name  
Still you light the fuse

You say you want to fight  
Then you always run  
You don't want to die  
Still you shoot the loaded gun

And now you see the Angels  
Gathering above you  
Trading down the stars  
Diamonds in the dirt  
Fires in the sky  
Lighting up the earth  
Now you see the Angels

And now you see the Angels  
Gathering above you  
Trading down the stars  
Diamonds in the dirt  
Fires in the sky  
Lighting up the earth  
Now you see the Angels

And now you see the Angels  
Gathering above you  
Trading down the stars  
Diamonds in the dark  
Fires in the sky  
Lighting up the earth  
Now you see the Angels
