

Ascend

All Good Things

Burn with me
Die with me
Rise with me
To the end
Dynasties
Fall to me
Fight with me

We fight
In the dark
Crawling through the wasteland
Beating hearts
Clawing out with both hands
They're mistaken
Thinking they've been standing over our graves

Underneath
Underestimated
In the deep
We're reanimated
They will never see the enemy
Until it's too late
Too late, too late

From the underground we will ascend
From the underground we will ascend
From the underground we will ascend
From the underground we will ascend

Burn with me
Die with me
Rise me
To the end
To the end
To the end

Silently
We mobilize the masses
The monarchy
Will finally fall to ashes
Now they're nervous
Of what's underneath the surface
They fear the end is near

From the underground we will ascend
From the underground we will ascend
From the underground we will ascend
From the underground we will ascend

Burn with me
Die with me
Rise with me
To the end
Dynasties
Fall to me
So fight with me
To the end

Climbing higher
Through the fire
If we die then it's fate
Cities burning
Overturning
Coming to a new age
Held us under
Now the hunters
Are the ones who get chased
They will never see the enemy
Until it's too late

Burn with me
Die with me
Rise with me
To the end
Dynasties
Fall to me
Fight with me
To the, to the

Burn with me
Die with me
Rise with me
To the end
Dynasties
Fall to me
So fight with me
To the end

Burn with me
Die with me
Rise with me
Rise, ascend (To the end)
Ascend (To the end)
Ascend (To the end)
Ascend (To the end)
(To the end)
Rise, ascend
