

Decimator

All Good Things

When the truth starts sinking in like a razor
Drag the blade across my skin, the enabler
I helped you come inside, let a stranger change my life
My life, I'm in danger

Blow it all away, love, Decimator
Don't hold back, tear out this one last breath
Rip this heart from my chest
Why you waiting, Decimator

Watch the mountains turn to dust
All we've built together will never be enough
Tear it down (Down, down, down, down)
Tear it down (Down, down, down, down)

Love is war!
Love is war!

Blow it all away, love, Decimator
Don't hold back, tear out this one last breath
Rip this heart from my chest
Why you waiting, Decimator
Watch me crack, don't stop, don't hesitate
Watch me disintegrate
Blow it all away, love, Decimator
Don't hold back, tear out this one last breath
Rip this heart from my chest
Why you waiting, Decimator
Watch me crack, don't stop don't hesitate

Ah, ah, ah
Ah, ah, ah

Blow it all away, love, Decimator
Don't hold back, tear out this one last breath
Rip this heart from my chest
Why you waiting, Decimator
Watch me crack, don't stop don't hesitate
Watch me disintegrate
Blow it all away, love, Decimator
Don't hold back, tear out this one last breath
Rip this heart from my chest
Why you waiting, Decimator
Don't hold back
