

Fallout

All Good Things

You set my soul set my soul set my soul on fire
You put the world put my world hangin' by a wire
You are the one I come undone and someone I seem to trust
Like shiny silver steel let's tear it up before we turn to rust
I have nowhere else, nowhere else left to go
And if I did, and if I did I still would not go
I'm gonna stay, like I say, forever and a day
Under the black sun
Lets play

You live, like something is behind you
Like something lives inside you
Like you have only minutes left until the end and I
Am magnetized beside you
And I can't leave despite you
And I won't break but in your arms I'll bend

Till the stars fall down, till the planets collide
Until the sun burns out and society dies
We'll be the last ones standing under the skies
Walk together in the fallout
But we will never fall out

And if you ever, while we're together think of anyone
Then you must go you must have your fun
I will wait for you no matter what you do
I will be here, I will see it through
I have nowhere else, nowhere else left to go
And if I did, and if I did I still would not go
I'm gonna stay like I say forever and a day
Under the black sun
Lets stay

You live, like something is behind you
Like something lives inside you
Like you have only minutes left until the end and I
Am magnetized beside you
And I can't leave despite you
And I won't break but in your arms I'll bend

Till the stars fall down, till the planets collide
Until the sun burns out and society dies
We'll be the last ones standing under the skies
Walk together in the fallout
But we will never fall out
Back to the black, where our hearts were born
There's a big bang coming, but we'll never be torn
We'll be the last ones standing, after it all
Walk together in the fallout
But we will never Fallout

And I am magnetized beside you
And I can't leave despite you
And I won't break but in your arms I'll bend

Till the stars fall down, till the planets collide
Until the sun burns out and society dies

We'll be the last ones standing under the skies
Walk together in the fallout
But we will never fall out
Back to the black, where our hearts were born
There's a big bang coming, but we'll never be torn
We'll be the last ones standing, after it all
Walk together in the fallout
But we will never Fallout

But we will never Fallout
