## All Good Things

Face to face, eye to eye  
Under lights, no where to hide  
Mask of steel, silent words  
Waiting till the coin had turned  
Many down, one more left  
Armour up, sights are set  
Turn the key, light it up  
One more war to take the cup

Waiting for the whistle, a pistol  
Waiting for a sign in the line  
On a target like a missile  
Waiting for the go, for the big show  
Laying out the wire, light the fire  
Now we're waiting till it blows

Fight like you'll never die  
Fight to stay alive  
Fight to raise the crown  
Fight to take them down  
Fight like you're gods and monsters  
Because you want to  
To save a life  
Fight for you and I  
Fight  
Fight for you and I  
Fight

Another brother takin'  
Somebody's flag  
Breaking somebody's hand  
Starting something like he think  
He's the man  
You know we can't stand by  
Let you do what you want  
We got the call, got the order  
Comin' ready or not  
Whatever the threat  
Man made our supernatural  
Extra terrestrial  
Home, or international

We won't discriminate  
Whatever your name  
No we won't hesitate  
To bring it like a hurricane

Waiting for the whistle, a pistol  
Waiting for a sign in the line  
On a target like a missile  
Waiting for the go, for the big show  
Laying out the wire, light the fire  
Now we're waiting till it blows

Fight like you'll never die  
Fight to stay alive  
Fight to raise the crown

Fight to take them down  
Fight like you're gods and monsters  
Because you want to  
To save a life  
Fight for you and I  
Fight  
Fight for you and I  
Fight

Fight like you'll never die  
Fight to stay alive  
Fight to raise the crown  
Fight to take them down  
Fight like you're gods and monsters  
Because you want to  
To save a life  
Fight for you and I  
Fight  
Fight for you and I
