

## Filthy Animals

## All Good Things

You wanted violence  
Now it's getting out of control  
Start a riot  
Now you're in the thick of it all  
It's do or die  
It's deadlier the deeper you go  
We're barbarians  
Filthy animals

You wanted violence  
You wanted violence

I've got nothing to lose  
Mistreated for a long time  
Sick of abuse  
Stick of dynamite rolled tight  
Lighting the fuse  
Gun powder in a landmine  
Now it's your move

I'm giving you a head start  
Watch your back  
You're just cutting me a clear path  
For the attack  
I was choking on a short leash  
Til it snapped  
There's a panic in your eyes  
Now they're fading to black

So you say you want more  
You wanna open this door?  
Careful what you wish for

You wanted violence  
Now it's getting out of control  
Start a riot  
Now you're in the thick of it all  
It's do or die  
It's deadlier the deeper you go  
We're barbarians  
Filthy animals

Sudden death for you or me  
Blood it tastes like victory  
If this is what you wanted  
Then finish what you started  
We're all starving for a fight  
Fear just fuels our appetite  
You wanted more  
We told you before  
Careful what you wish for

Violence  
Now it's getting out of control  
Start a riot  
Now you're in the thick of it all

Manhunt ready to go  
Cheap shots  
Throwing bombs  
I'll be hacking the bone  
Haymakers  
When the gloves drop  
I'm gonna throw  
Can't stop  
'Cause it's all just part of the show

I'm telling you to run fast  
You're gonna pay  
I've been sitting for a long time  
Open the cage  
I've been waiting for revenge  
For that look on your face  
Searching for a sign  
I've been counting the days

So you say you want more  
You wanna open this door?  
Careful what you wish for

You wanted violence  
Now it's getting out of control  
Start a riot  
Now you're in the thick of it all

Sudden death for you or me  
Blood it tastes like victory  
If this is what you wanted  
Then finish what you started  
We're all starving for a fight  
Fear just fuels our appetite  
You wanted a war  
We told you before  
Careful what you wish for

I'm pushing limits and boundaries  
Every person who doubted me  
Sees the beast  
They're pulling it out of me

I'm pushing limits and boundaries  
Every person who doubted me  
Sees the beast  
They're pulling it out of me
