

It's Not over Yet

All Good Things

Breathe
Another deep breath
It's all that I'll get
A little bit less
Than what I need to live

And I'll climb
One step at a time
But my body's on fire
And the mountain's much higher
Than what I've got left to give

So I suffocate from all the smoke
They circulate the chemicals
I hold onto my highest hopes
But they dig the deepest holes

I can feel my blood run cold
Inhale another lethal dose
I choke
Holding me by the throat
I won't become a ghost

I had to pay the price
I'm fighting for my life
I don't wanna die yet
Won't walk into the light
Not ready for goodbye yet

I won't give up
Even if I'm on my last breath
Losing blood
Lying on my death bed

I won't give up
Fight till there's nothing left
Can't forget
We just gotta breathe
We gotta believe
It's not over yet

Can't forget
We just gotta breathe
We gotta believe
It's not over yet

I can hear it all around
These flashing lights and sounds
Surrounding me
I will remain defiant
Through deafening air raid sirens

Crawling to a new horizon
From the black
The sun is rising soon
Color will paint the sky
My fire will reignite

I had to pay the price
I'm fighting for my life
I don't wanna die yet
Won't walk into the light
Not ready for goodbye yet

I won't give up
Fight till there's nothing left
Can't forget
We just gotta breathe
We gotta believe
It's not over yet

I'm lifting off the ground
Got no idea how
I haven't fallen down yet
I'm standing on my own
Blood and broken bones
But I'm not gonna stop yet

I'm walking through the pain
I can feel it in my veins
I got a little strength left
I'm running out of time
But as long as I'm alive

I won't give up
Fight till there's nothing left
Can't forget
We just gotta breathe
We gotta believe
It's not over yet
