

## Oh Yeah

### All Good Things

Coming down like a thunderstorm  
We're rolling in nowhere to run, no no  
Gonna shake the walls gonna start a fire  
Light it up burn it to the wire, oh yeah

I've got the gods on my side the wind at my heels  
I got to know now are you with me

Shout it out bring it on if you wanna sing along  
Everyone let me hear ya say  
Oh yeah  
Raise your hands if you're there and you feel it in the air  
Everywhere let me hear you say  
Oh yeah

Banging drums and loud guitars  
Rocket ships and shooting stars, oh no  
(Stand up and let it out)  
People dance scream and shout  
Let me tell you what it's all about, oh yeah

(I wanna hear you know)  
I've got the gods on my side the wind at my heels  
I got to know now are you with me

Shout it out bring it on if you wanna sing along  
Everyone let me hear ya say  
Oh yeah  
Raise your hands if you're there and you feel it in the air  
Everywhere let me hear you say  
Oh yeah
